1.  Comment. Previous information indicated that 2,000 to 3,000 containers were stored at the Biesenthal fuel depot. This observation confirms the Soviet planning of a continuous increase of fuel capacities. 25X1
2.  Comment. The volume of fuel supply traffic did not exceed the average. The three divisions of the army which are not stationed near Biesenthal are supplied by rail, while the division at Eberswalde receives its fuel supply by road. 25X1
